## "Hello" From the Chair

### Happy Back to School & Labor Day

Although the city continually tells us that we have a low millage rate, doesn't mean that we aren't paying a lot of taxes in this city.

The mere fact that we are the fourth largest city in this state says that they are collecting taxes from more people. Also because we have a lot of commercial and industrial it brings a lot more money into the city coffers. The long time residents of this community along with prior elected servants worked hard to make sure that we would have a great, sustainable community but still be able to have low taxes by making sure that not only would we have a safe city, parks and rec., but we would have the Mound Road Corridor of industrial businesses along with a lot of commercial to offer jobs and bring money into the community to keep our taxes low.

So please don't be fooled by our current 'Tax and Spend' Liberal Council which wants to make you believe that our city isn't as good as others that have all these nice to have but frivolous things along with high taxes. In the past we asked Parks and Rec. how many people used the park. They would give us a number, but we later found out that every time someone used the park they were counted as another person. So if someone used the park 4 times a week they were counted 4 times. Yes we do need parks but they are expensive commodities to maintain and they also need security and liability insurance to keep the people safe and pay for law suits that could get filed against the city. There was a flasher who swam across the river from the park side and tried to escape by hiding in my yard. Luckily we saw him called the police and they caught him. But I had to sign something to say he was trespassing on our property so they wouldn't have to let him go. One time I took a 3 year old to the river and there was someone on the park side having sex on the bank of the river for all to see. Parks are wonderful, but they also can be a liability.

Have a grand and glorious day. God bless!

Your friend and neighbor

*Philia*

### Favorite Quotes

**Prior Planning prevents poor Performance** (Mike Sessa)

Did you ever consider that the liberal left is always available and out there rallying and rioting. They are always ready willing and able to back their elected servants?

**Freedom isn't free** (Richard Headlee)

Conservatives have a lot of excuses as to why they aren't involved and rarely show up. If we want to be effective we must plan and show up if we want to be free.
